

Technical questionnaire for radial magnetic chuck BRUMAG

1) On which machine will be the magnetic plate placed? *

Karusel Milling machine Turning machine

2) Kind of machining? *

Turning Milling Drilling Grinding

3) Kind of clamping? *

Direct on the machine table with screws With clamps

4) Which workpieces will be machined? *

Weldments Castings Forgings Other

5) Which materials will be machined?

6) Machining *

Heavy (turning) cut > 10 mm Middle (turning) cut 10 - 2 mm

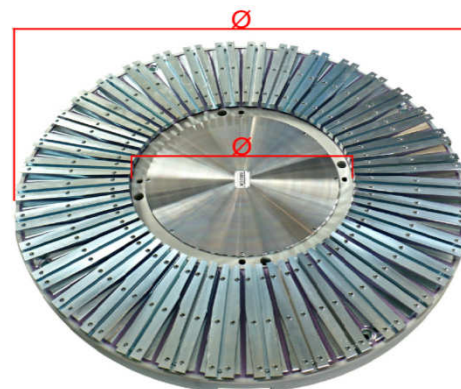

Light (turning) cut < 2 mm

7) Required dimensions of magnetic plate?

[from - to] mm

8) Sizes of workpiece parts to be machined there?

Outer \varnothing	[from - to]	<input type="text"/>	mm
Inside \varnothing	[from - to]	<input type="text"/>	mm
Height [h]	[from - to]	<input type="text"/>	mm

9) Weight of workpiece

Weight [od - do] kg

10) Do you require a handling technic to the magnetic plate? *

Yes No specify

11) Are you interested in the lending of magnetic plate? *

Yes No

12) Do you prefer to machine a test piece in Brück? *

Yes No

Items with * mark
